● **COAL INDIA RATING: BUY**

Strong demand to boost earnings

Dividends are likely to be healthy; FY23/24 Ebitda up 6/2%; target price increased to ₹290 from ₹275; 'Buy' rating maintained

WE EXPECT GLOBAL coal demand to remain strong in the near term as the world recovers from the pandemic and Europe shifts to renewables (in the long term) from Russian gas, increasing dependency on coal in the near term. We believe that with a continued heat wave in China, hydro production should reduce further, increasing reliance on thermal coal. We further believe Europe will continue to re-open as well as increase the lifecycle of its remaining thermal power plants and in the process will fuel demand for thermal coal.

Domestic coal demand to remain strong India's coal consumption is likely to increase and so will its thermal coal imports in the near term. As Europe continues to buy more South African coal, we believe port-based plants in India will remain shut or operate at a lower rate, putting pressure on domestic coal-based plants to ramp up generation. This, in turn, will fuel demand for domestic coal.

E-auction premiums to remain firm We expect FY23 e-auction premiums to

remain in triple digits at least as: Coal availability for e-auction has reduced drastically with most of the coal being diverted to the power sector; e-auction reforms have brought all non-fuel supply agreement buyers on one platform, increasing competition; rising price of South African coal will prompt domestic consumers of South African coal to shift to domestic coal.

Wage cost hike of 15% is factored in We have factored in a 15% wage hike in our FY23 numbers along with a 5% natural attrition, thereby providing a cushion to our PAT estimates.

Valuation and view Coal India trades at 3.0x/4.3x our FY23/24E EV/Adj. Ebitda. We expect a

Supplying coal at highly competitive prices: CIL

Not raised prices for past 4 yrs, even at a time when intl coal prices are much higher, says Coal India chairman

KOLKATA

COAL India Ltd (CIL) on Tuesday said the miner has not raised prices of the dry fuel in the last four years to ensure its supply at competitive prices to consumers compared to the international market.

While addressing shareholders at the company's 48th AGM, Chairman Pramod Agrawal said that the CIL is committed to increase its production and supplies to the mandated levels to ensure that the country gets power at a "just" price. Coal India meets 80 per cent of the country's dry fuel requirement. "At a time when international coal prices are much higher, Coal India continues to supply its coal to Indian consumers at highly

Coal would continue to fuel India's electricity generation based on the current usage pattern. I welcome government's impetus for renewables from the environmental perspective and climate commitments made by India in COP 26

- Pramod Agrawal, Chairman, Coal India Ltd

competitive prices, with no price increase over the last four years," Agrawal said without elaborating. The CIL chief had said earlier that the company was in discussion with all 'stakeholders' on revising coal prices in the wake of a jump in operational cost. At the AGM, Agrawal said that coal would continue to fuel India's electricity generation based on the current usage pattern. He, however, welcomed the govern-

ment's impetus for renewables from the environmental perspective and climate commitments made by India in COP 26. "But, till renewable energy starts contributing to the extent that it could take over coal's role, coal cannot be dethroned from its energy pedestal," he said.

The entry of renewable energy

sources should not be viewed as a 'threat' to coal's standing at least in the immediate future, Agrawal said. "Out of the country's electricity generation of 1,490.277 billion units in FY'22, coal-based generation accounted for 69.9 per cent or

1,041.459 billion units. This represents a growth of 9.5 per cent over the preceding year," he said. Coal India produced 622.63 million tonnes of coal in FY'22 which is the highest since CIL came into being. Production for the year represents an increase of

26.41 million tonnes which is a 4.4 per cent growth over last year. CIL has devised a transformational plan for operationalising 14 mines through engagement of Mine Developer cum Operators, having proposed a capacity of 165.58 million tonnes per annum which would contribute to sizeable production in the coming years, he said. "Your company's capital expenditure of Rs.15,400.96 crore in 2021-22 was the highest ever registering 15.94 per cent growth compared to the capex of Rs 13,283.83 crore of FY'21," the CIL chief told shareholders. Agrawal also gave some other updates on the miner's achievements and steps on connectivity, modernisation, automation and Information Technology interventions.

NO CONTENT OF INDIA LISTING

No demerger before listing of 2 Coal India arms: CMD

Agrawal cites rising costs, hints at hike in coal prices

FE BUREAU
Kolkata, August 30

COAL INDIA (CIL) has no plans for the demerger of Bharat Coking Coal (BCCL) and Central Mine Planning and Design Institute (CMPDI) before their listing, CIL chairman & managing director Pramod Agrawal said.

Addressing the state-run coal miners' 48th annual general meeting, Agrawal said: "A part of their (BCCL and CMPDI) shares may get listed... We are working on the plan. All approvals are being obtained."

CIL may divest up to 25% each in BCCL and CMPDI, sources said. CIL has a total of 10 subsidiaries — seven mining subsidiaries, two subsidiaries for pursuing renewable projects and one for mine planning and design.

Although the ministry has been asking the coal miner for a long time to initiate the listing of BCCL and CMPDI, the company has so far remained tight-lipped on the issue.

The CMD told shareholders that CIL was committed to increasing its supplies and production of coal to ensure that the country got power at "just prices". But he hinted that a price increase was necessary, since all

■ The CMD said that coal would continue to remain the mainstay fuel for electricity generation

prices. There has been no price increase over the last four years," Agrawal said. "The prices of diesel and explosives have gone up and wage revisions are underway," he added.

Agrawal lauded the government for its renewable initiatives but told the shareholders that coal would continue to remain the mainstay fuel for electricity generation, given the current pattern of coal usage in the country.

CIL, he said, has been meeting 80% of the country's dry fuel requirement for electricity generation. Of the country's power output of 1,490 billion units in FY22, coal-based generation accounted for around 70%.

Chances of renewables displacing coal in the near future are nil, he said, but added that CIL has already forayed into the renewables business. While the company was considering solar projects in a big way, pre-feasibility studies have been done during the year to set up integrated coal-to-chemical (C2C) plants utilising low-ash coal. The tendering process for the C2C plant was on. These plants are proposed to be located near mine heads of ECL, SECL and WCL to produce methanol, ammonia and ammonium nitrate, respectively.

CIL has plans to operationalise 14 mines through the engagement of mine developer-cum-operators (MDOs), having a proposed capacity of 165.58 million tonne per annum.

input costs of producing coal were going up.

"At a time when international coal prices are much higher, Coal India continues to supply its coal to the Indian consumers at highly competitive

सीआईएल ने चार साल में कीमतें नहीं बढ़ाई

कोल इंडिया लिमिटेड (सीआईएल) ने मंगलवार को कहा कि उसने पिछले चार वर्षों में कोयले की कीमतों में कोई इजाफा नहीं किया है और अंतरराष्ट्रीय बाजार की तुलना में बेहद प्रतिस्पर्धी कीमत पर आपूर्ति सुनिश्चित की है। सीआईएल के चेयरमैन प्रमोद अग्रवाल ने कंपनी की 48वीं आम सभा (एजीएम) में शेयरधारकों से कहा कि वह उत्पादन और आपूर्ति को अनिवार्य स्तर तक बढ़ाने के लिए प्रतिबद्ध है, ताकि देश को 'उचित' कीमत पर बिजली मिले। देश में कोयले की कुल आपूर्ति का 80 फीसदी कोल इंडिया उपलब्ध कराती है। उन्होंने यह भी कहा कि सीआईएल की अपनी अनुषंगी कंपनियों भारत कोकिंग कोल लिमिटेड (बीसीसीएल) और केंद्रीय खान योजना एवं डिजाइन संस्थान (सीएमपीडीआई) को सूचीबद्ध करने की योजना है। उन्होंने हालांकि कहा कि इन कंपनियों को अलग करने का कोई सवाल ही नहीं है। सीआईएल की कुल आठ अनुषंगी कंपनियां हैं। बीसीसीएल और सीएमपीडीआई को सूचीबद्ध करने की योजना पर उन्होंने कहा कि उन्हें अलग करने का सवाल ही नहीं उठता। अग्रवाल ने कहा, 'उनके शेयरों का एक हिस्सा सूचीबद्ध हो सकता है। हम उस पर काम कर रहे हैं। सभी मंजूरीयां ली जा रही हैं।' भाषा

Coal India scales up capex to ₹16,500 cr in FY23

Mulls price hike due to steady rise in input costs

OUR BUREAU
Kolkata, August 30

Coal India Ltd (CIL) is likely to step up its capex in 2023-24 to ramp up production and evacuation infrastructure. The State-owned miner, which accounts for nearly 80 per cent of the country's total coal output, is mulling a price hike due to steady rise in input cost.

According to Pramod Agrawal, Chairman and Managing Director, CIL, the company has been increasing its capex on a year-on-year basis since FY20 to strengthen its evacuation infrastructure by way of first-mile connectivity projects. CIL had spent close to ₹6,600 crore on capex in 2019-

20. This jumped by more than 100 per cent to ₹13,500 crore in FY21 and was further scaled up to ₹15,400 crore in FY22. The company has earmarked a capex of close to ₹16,500 crore this fiscal.

"To increase production and evacuation infrastructure we need to invest money. The capex will be much more in the next financial year primarily for first-mile connectivity projects," Agrawal said responding to shareholders' queries at the 48th annual general meeting virtually on Tuesday.

For quicker and quality loading of coal having environmental friendly benefits, CIL has identified 44 projects under 'First Mile Connectivity Projects', to be implemented in two phases.

In the first phase, of the planned 35 FMC projects of 414.5

Pramod Agrawal, CMD, CIL

million tonnes (mt) capacity, three projects of 52 mt capacity have been commissioned during FY22 and three projects were commissioned earlier making it a total of six FMC projects of 82 mt capacity in operation. In the second phase, of the nine FMC projects of 57 mt, work has been awarded for three projects of 14 mt capacity in FY22.

Price rise

CIL, Agrawal said, has not raised prices of the dry fuel in the last

four years to ensure its supply at competitive prices to consumers compared with the international market amid a rise in input cost.

However, prices of diesel and explosives have gone up and wage negotiations were also underway, he said, hinting at the possibility of a price rise.

With a clear emphasis on increasing production, CIL and its subsidiary company boards have approved 16 mining projects in FY22 having a sanctioned capacity of 99.84 mt a year. These projects will start contributing in the ensuing years.

As many as five mining projects having a capacity of 12.60 mt a year have been completed during FY22.

The company has devised a transformational plan for operationalising 14 mines through

engagement of Mine Developer cum Operators (MDO), having a proposed capacity of 165.58 mt per annum. These mines would contribute in sizeable quantities towards production in the coming years, he said.

C2C plant in Odisha

Coal India is planning to set up a coal-to-chemical (C2C) plant utilising high ash coal to produce ammonium nitrate at Mahanadi Coalfields Ltd (MCL) in Odisha. Ammonium nitrate is an important component in manufacturing of explosives, extensively used in the CIL mines.

According to Agrawal, the C2C plant would help cater to the requirement of coal producing subsidiaries. Price of explosives, one of the key input material for excavating coal, has gone up substantially, he said.

CORPORATE

Coal India setting up 10 washeries

Steel Insights Bureau

Coal India (CIL) is setting up 10 new coal washeries including: 3 in Bharat Coking Coal Ltd having total capacity of 7 mtpa; 6 coking coal washeries in Central Coalfields Ltd with total capacity of 18 mtpa and another non-coking coal washery at Ib Valley, Lakhimpur in Mahanadi Coalfields Ltd, which is under advanced state expected to be up this year.

CIL is presently operating 14 washeries with total washing capacity of 30 mtpa including Madhuband (5 mtpa) which became operational in July.

These were disclosed in the recently released annual report of Coal India.

Tenders for setting up coking coal washery of capacity 3 mtpa on Build-Own-Operate (BOO) concept at Rajrappa within Central Coalfields Ltd and for renovation of existing Madhuban coking coal washery of 2.5 mtpa capacity at Bharat Coking Coal's Dhanbad district on Renovate-Operate-Maintain (ROM) model were recently floated.

Coking Coal Mission to meet domestic demand

The government has launched the Coking Coal Mission to meet the demand for domestic coking coal, Coal Minister Pralhad Joshi recently told the Lok Sabha.

Under this mission, 12 coking coal washeries are being constructed having capacity of 30 mtpa.

He said the government has taken steps to explore new coking coal blocks, auction of new coking coal mines, enhance raw coking coal production, and enhance coking coal washing capacity.

CIL has undertaken constant efforts to enhance coking coal production by capacity addition of existing coking coal producing mines and by opening new coking coal blocks, minister Joshi said.

According to National Steel Policy 2017, to achieve steel making capacity of 300 million tons (including 180 mtpa through Blast Furnace route) by 2030, 170 mt coking coal will be required by 2030.

Under Mission Coking Coal, the

government has set a target of production of 105-mt production by CIL and 35 mt by others leading to a domestic availability of 140 mt by 2030.

According to the Coal Ministry, CIL has also taken the following steps to increase the output/production of domestic raw coking coal:

- Constant efforts to enhance coking coal production by capacity addition of existing coking coal producing mines and by opening new coking coal blocks.
- Mass production technology has been introduced in coking coal producing UG mines of CIL to enhance the raw coking coal production.
- Offering of coking coal blocks for production to private sector (including some discontinued mines) on revenue sharing basis through MDO route.

Steps to encourage indigenous clean coal tech

The government has taken following steps to introduce clean coal technologies in Coal sector to contribute in future energy security of the country

The government has launched coal gasification mission with a target to gasify 100 mt by 2030. Under this mission, surface coal/lignite gasification projects are being constructed.

bearing areas are being produced while the government is also working on 'Coal to Hydrogen' Mission.'

All these efforts will contribute in future energy security of the country, the Coal Ministry has said.

Under 'Make in India' mission, government is making all efforts to encourage to develop indigenous clean coal technologies in the country, the ministry said.

Projects coal production of 840 mt in FY24

CIL has projected coal production of 840 mt for FY24, according to Coal Minister Pralhad Joshi.

To increase production through the Mine Developer and Operator (MDO) model, CIL has identified 15 projects to raise production through the mining having combined capacity of 168.6 mtpa of which 6 MDO projects have already been awarded with capacity of 96.74 mtpa.

Capacity addition of 289 mtpa is being done through approval of new and expansion PRs.

Advanced Technologies like surface miners, etc. for open cast mining and Power supported Longwall (PSLW), High wall Mining, continuous miner etc. for under ground mines are being deployed for efficiency and higher production of coal.

CIL has taken steps to upgrade mechanised coal transportation and loading system through CHP/Silo under 'First Mile Connectivity' projects.

This will facilitate faster evacuation of coal, the ministry said.

In order to ramp up domestic production of coal, several steps have been taken of which the major steps are as under:

- ♦ To increase production through MDO model, CIL has identified 15 MDO

Sector-wise dispatch of coal (in million tons)

Green nod For 10 expansion projects

CIL's 10 coal mining projects have environmental clearances so far for their expansion which would lead to additional capacity of 9.65 mt, Coal Minister Pralhad Joshi recently told the Parliament.

The government had earlier eased the norms for coal mine expansion in the wake of supply crunch in summer months.

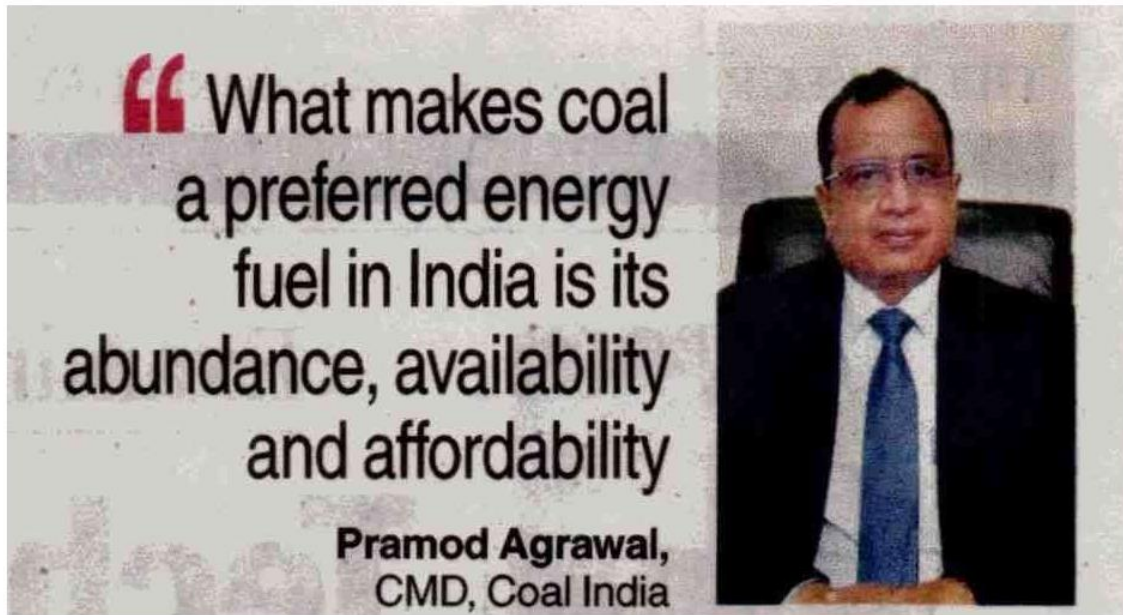

Joshi said of the 10 projects of CIL, 3 are in Odisha, 2 each are in Maharashtra and Madhya Pradesh, Uttar Pradesh and 1 in Chhattisgarh.

While in 5 coal mining expansion projects, environment clearances was given in May, in the remaining five cases the nod was given in July.

While granting clearances to these projects, which are falling within and outside the severely polluted area, additional environmental safeguards have been provided as part of the condition, Joshi said. ■

सीआईएल ने चार साल में कीमतें नहीं बढ़ाई कोल इंडिया के चेयरमैन ने एजीएम में कहा

आज समाज नेटवर्क

कोलकाता। कोल इंडिया लिमिटेड (सीआईएल) ने मंगलवार को कहा कि उसने पिछले चार वर्षों में कोयले की कीमतों में कोई इजाफा नहीं किया। कंपनी ने अंतरराष्ट्रीय बाजार की तुलना में बेहद प्रतिस्पर्धी कीमत पर आपूर्ति सुनिश्चित की।

सीआईएल के चेयरमैन प्रमोद अग्रवाल ने कंपनी की 48वीं आम सभा (एजीएम) में शेयरधारकों से कहा कि वह उत्पादन और आपूर्ति को

अनिवार्य स्तर तक बढ़ाने के लिए प्रतिबद्ध है, ताकि देश को उचित कीमत पर बिजली मिले। देश में कोयले की कुल आपूर्ति का 80 प्रतिशत कोल इंडिया उपलब्ध कराती है।

अग्रवाल ने कहा, ऐसे वक्त में जब अंतरराष्ट्रीय स्तर पर कोयले की कीमतें बहुत अधिक हैं, कोल इंडिया भारतीय उपभोक्ताओं को अत्यधिक प्रतिस्पर्धी कीमतों पर कोयले की आपूर्ति कर रही है, और पिछले चार वर्षों में कीमतों में कोई वृद्धि नहीं हुई है। सीआईएल प्रमुख ने इससे

पहले कहा था कि कंपनी परिचालन लागत में बढ़ोतरी के मद्देनजर कोयले की कीमतों में संशोधन पर सभी हितधारकों के साथ चर्चा कर रही है। उन्होंने एजीएम में कहा कि मौजूदा उपयोग पैटर्न के आधार पर भारत के बिजली उत्पादन में कोयला की भूमिका बनी रहेगी। हालांकि, उन्होंने पर्यावरण के नजरिए से नवीकरणीय ऊर्जा के लिए सरकार के प्रोत्साहन और सीओपी-26 में भारत द्वारा की गई जलवायु प्रतिबद्धताओं का स्वागत किया।

शेयर होल्डरों को लाभांश देगी कोल इंडिया

एजीएम में लिया निर्णय, प्रति शेयर तीन रुपये देगी लाभांश, करीब 1900 करोड़ रुपये होंगे खर्च

कोयला जगत

जागरण संवाददाता, धनवाद : कोल इंडिया अपने शेयर होल्डरों को वर्ष 2021-22 के लिए लाभांश के रूप में 19 सौ करोड़ रुपये देगी। शेयर होल्डर को प्रति शेयर तीन रुपये का लाभांश मिलेगा। कोल इंडिया के शेयर होल्डरों को संख्या करीब 6,162 करोड़ है। इसके अलावा कोल इंडिया अपने लाभ में से केंद्र सरकार को करीब 13 सौ करोड़ रुपये देगी। यह निर्णय कोल इंडिया की 48 वीं वार्षिक आम बैठक में मंगलवार को लिया गया।

बैठक का आयोजन कोलकाता कोल भवन में किया गया था। इसकी अध्यक्षता कोल इंडिया

कोलकाता में आयोजित कोल इंडिया की एजीएम में मौजूद अधिकारी • सौ. बीसीसीएल

चेयरमैन प्रमोद अग्रवाल ने की। मौके पर अग्रवाल ने कहा कि कोल इंडिया बेहतर स्थिति में है। कोयला का विकल्प ऊर्जा के क्षेत्र में लंबे समय तक नहीं है। इसलिए कोयला उत्पादन व डिस्पैच में गति लाने के लिए कई मेगा योजना पर काम हो रहा है। कोल इंडिया स्मॉल एनर्जी के साथ-साथ कई अन्य सेक्टर में अपनी संयुक्त भागीदारी निभा रही है। कोयला आयात में कमी

लाने की दिशा में भी काम हो रहा है। देश में कोयला जरूरत को पूरा करने की दिशा में कई नए प्रोजेक्ट खोले जा रहे हैं। एक हजार मिलियन टन कोयला उत्पादन करने की दिशा में तेजी से काम हो रहा है। जमीन सहित अन्य समस्याओं पर कोल इंडिया का ध्यान है। राज्य व केंद्र सरकार के साथ मिलकर इस पर काम हो रहा है। मौके पर कोल इंडिया डीपी विनय रंजन, निदेशक

रिटायर कोल कर्मियों को बढ़ी दर पर ब्याज भुगतान शुरू

जास, धनवाद : सीएमपीएफ ने रिटायर कोयल कर्मियों को बढ़े हुए 0.1 प्रतिशत ब्याज दर का भुगतान करना शुरू कर दिया है। करीब एक लाख रिटायर कर्मियों के खाते में राशि भुगतान की जा रही है। यह राशि वर्ष 2017 से 2020 तक की है। धनवाद के करीब

28 हजार रिटायर कर्मियों को इसका लाभ मिलेगा। सीएमपीएफ आयुक्त ने बताया कि अगर किसी को भुगतान नहीं मिल पा रहा है तो वह संबंधित विभाग से संपर्क कर सकते हैं। इसको लेकर सभी क्षेत्रीय कार्यालय को दिशा-निर्देश जारी कर दिया गया है।

व्यवसाय विकास देवाशीष नंद, कार्यकारी निदेशक वित्त सुनील कुमार मेहता, स्वतंत्र निदेशक जी नगेश्वर राव, डा. अरुण कुमार उरांव, कमलेश कौत आचार्य, दिनेश सिंह, पीके मकवाना सहित कोयला मंत्रालय के अपर सचिव वीके तिवारी, तकनीकी निदेशक वी बी रेड्डी एवं स्वतंत्र निदेशक बी राजेश ने आनलाइन के जरिए एजीएम में हिस्सा लिया।

ढेका श्रमिकों की सुविधा को ते इंटर ने वेयरमैन को लिखा पत्र : कोल इंडिया में आउटसोर्सिंग व ठेका पर काम कर मजदूरों को सामाजिक सुरक्षा व अन्य सुविधाओं से वंचित रखा गया है। इन्हें न्यूनतम वेतन दिया जा रहा है। इसे लेकर इंटरक के उपाध्यक्ष एके झा ने मंगलवार को कोल इंडिया चेयरमैन को पत्र भी लिखा है। उन्होंने इन्हें जल्द ही सारी सुविधाएं दिलाने की मांग की है।

रिकार्ड उत्पादन की राह पर अग्रसर कोल इंडिया

धनबाद. सार्वजनिक उपक्रम कोल इंडिया लिमिटेड अपने स्थापना काल के बाद वित्तीय वर्ष 2022 - 23 में ऐतिहासिक उत्पादन करने की राह पर अग्रसर है. इस वित्तीय वर्ष के अप्रैल से अगस्त तक कंपनी ने पिछले वित्तीय वर्ष 2021 - 22 के अप्रैल - अगस्त मुकाबले 44.15 मिलियन टन (एमटी) अधिक कोयले का उत्पादन किया है. उत्पादन में 21.1 प्रतिशत का ग्रोथ है. दूसरी ओर कोल इंडिया की सभी अनुषंगी इकाइयों में एमसीएल ने इस अवधि के दौरान, पिछले वित्तीय वर्ष के इस अवधि से 26.3 प्रतिशत यानी 15.38 एमटी अधिक तो बीसीसीएल ने 31.8 प्रतिशत ग्रोथ के साथ 3.26 एमटी अधिक कोयले का उत्पादन किया है. अगर उत्पादन की यही रफ्तार रही, तो कोल इंडिया पिछले वित्तीय वर्ष के मुकाबले लगभग 130 एमटी अधिक यानी लगभग 750 एमटी कोयले का उत्पादन करेगी. पिछले वित्तीय वर्ष कोल इंडिया ने 622.64 एमटी उत्पादन किया था. आधिकारिक आंकड़ों के मुताबिक अपने स्थापना के बाद कोल इंडिया ने वर्ष 2015 - 16 में, वित्तीय साल 2014-15 के 494.24 एमटी के मुकाबले 538.75 एमटी यानी 44.51 एमटी अधिक कोयले का उत्पादन किया था. जानकार कहते हैं कि अगर इस वित्तीय वर्ष में कोल इंडिया 750 एमटी उत्पादन कर लेता है, तो देश को कोयला आयात कम करना पड़ेगा.
