The Contract Agreement should be read and understood by the Bidders.
- 1.1.7 The statements and explanations contained in this RFB are intended to provide a better understanding to the Bidders about the subject matter of this RFB and should not be construed or interpreted, as limiting, in any way or manner the scope of services and obligations of the Mine Operator as set forth in the Contract Agreement or the Authority's rights to amend, alter, change, supplement or clarify the scope of work, the Contract Agreement or the terms thereof or herein contained. Consequently, any omissions, conflicts or contradictions in the Bidding Documents, including this RFB, are to be noted, interpreted and applied appropriately to give effect to this intent, and no claims on that account shall be entertained by the Authority.

The Engineer in charge shall require the Mine Operator to carry out or cause to be carried out tests to determine that such remedial measures have brought the Construction Works and Equipment into compliance with the Specifications and Standards, and the procedure set forth in this Clause 13.3 shall be repeated until such

Construction Works and Equipment conform to the Specifications and Standards. For the avoidance of doubt, it is agreed that tests pursuant to this Clause 13.3 shall be undertaken in addition to and of the tests that shall be carried out by the Mine Operator for its own quality assurance in accordance with Standard Industry Practice. It is also agreed that a copy of the results of such tests shall be sent by the Mine Operator to the Authority forthwith.

- 20.1.1 The Mine Operator shall, at all times during the Contract Period, ensure and procure the fulfillment of its obligations in respect of development of the Mines in accordance with Applicable Laws, Applicable Permits, Mining Plan, the provisions of this Agreement and Standard Industry Practice.
- 20.1.2 The Mine Operator acknowledges, agrees and undertakes that the layout and geometry of Mines, including underground development in rock and/ or Coal for access and development of trunk roadways in Coal Seams, layout of panels in the Coal Seams, panel length and width, method of underground development and working height or thickness of galleries or roadways during underground development in rock and Coal Seams etc., shall at all times be in absolute conformity and compliance with the provisions of this Agreement, Applicable Laws and Standard Industry Practice.
- 20.1.3 The Engineer in charge shall regularly determine the compliance of the provisions of this Article 20 by the Mine Operator.

20.2 Schedule of Mine Development

- 20.2.1 The Parties expressly agree that during each Accounting Year after the Appointed Date, the Mine Operator shall undertake development of the Mines to the extent necessary for mining operation in accordance with the terms of this Agreement and the schedule given below ("**Scheduled Development Length**"):

Accounting Years	Scheduled Development Length (m)		
	[..Development 1..]	[..Development 2..]	[..Development 3..]
1			
2			
3			
4			
Subsequent years			
Total			

Provided that, in the event of any significant change in the cross section area and length, the Scheduled Development Length shall be modified with the prior written approval of the Authority.

- 20.2.2 The Mine Operator may undertake advance development of the Mines in excess of the Scheduled Development Length with the prior written approval of the Authority.
- 20.2.3 The Authority shall conduct monthly measurement of development of the Mines, using appropriate approved technology or any other suitable methodology, in

presence of a representative of the Mine Operator to determine compliance with Article 20.

20.3 Mine Development Adjustable Amount

20.3.1 [Upon commencement of development of the Mines by the Mine Operator in accordance with the terms of this Agreement, as certified by the Engineer in charge and measured by the Engineer in charge during the monthly measurement, the Authority shall be liable to pay to the Mine Operator in respect of each month prior to the occurrence of Coal production during which the development of the Mines is done by the Mine Operator, an adjustable sum calculated at a fixed rate of: (a) [Rs. 1,50,000 (Rupees one lakh fifty thousand only)] per meter of development length with adequately supported inclines with finished cross section (includes adits, drifts and declines); and (b) [Rs.3,00,000 (Rupees three lakh only)] per meter of development length with adequately lined shafts ("**Mine Development Adjustable Amount**")⁸. The Mine Development Adjustable Amount shall be paid against the submission of bank guarantee(s) from a Bank by the Mine Operator. The value of such bank guarantee(s) shall, at no point of time, be less than 110% (one hundred and ten per cent) of the amount disbursed or due to be adjusted by the Authority. Such bank guarantee(s) shall be valid, effective and in full force till the full adjustment is made. It is hereby clarified that the aforesaid bank guarantees against the payment of Mine Development Adjustable Amount is separate and in addition to the Mine Operator's obligation to furnish the Performance Security under Article 9.

20.3.2 The Mine Development Adjustable Amount paid by the Authority shall be adjusted against the Mining Charge payable by the Authority to the Mine Operator, in equal instalments spread over a period of 60 (sixty) months beginning from the month in which the first Monthly Invoice is raised by the Mine Operator. In case of any shortfall in recovery, it shall be adjusted against the subsequent Monthly Invoices.]⁹

20.4 Damages for Failure to adhere to Schedule of Mine Development

20.4.1 In case the actual development length of the Mines done by the Mine Operator is less than the Scheduled Development Length in any Accounting Year, then the Mine Operator shall submit an irrevocable, unconditional and first demand bank guarantee in favour of the Authority, in a form and manner acceptable to the Authority from a Bank for a sum equivalent to the percentage of the Development Shortfall of the Performance Security ("**Development Guarantee**"). For the purposes of this Clause 20.4, "**Development Shortfall**" shall mean the sum of the positive difference(s) for each of the Scheduled Development Length(s) and the actual development length(s).

Illustration for calculation of percentage of Development Shortfall:

In an Accounting Year, if Scheduled Development Length(s) for 'Development 1', 'Development 2', 'Development 3' and 'Development 4' are 100m, 100m, 100m and 200m respectively and actual development lengths are 120m, 50m, 50m and 200m respectively, then, the Development Shortfall is 100m (i.e., 0m+50m+50m+0m) and

⁸ Mine Development Adjustable Amount may be kept approximate 75% of the prevailing rate of incline drivage /shaft sinking of similar cross section.

⁹ The Clause 20.3 shall be applicable only for the Project when the planned production of coal is scheduled to start after more than 3 (three) years from the Appointed Date as per the approved Mining Plan. For all other projects this clause shall be deleted.

the percentage of Development Shortfall is 20 (Development Shortfall X 100/ Scheduled Development Length, i.e 100m X 100/500m = 20). Hence, the Development Guarantee shall be 20% of the Performance Security.

- 20.4.2 The Mine Operator shall keep the Development Guarantee valid and effective and in full force until the date that occurs 90 (ninety) days after the expiry of [*****]¹⁰ Accounting Years following the Accounting Year in which the relevant Development Shortfall occurred; or (ii) Contract Period, whichever is earlier.
- 20.4.3 At least 30 (thirty) days prior to expiry of the Development Guarantee, the Mine Operator shall furnish a replacement Development Guarantee to the Authority, failing which the Authority shall be entitled to, after giving 5 (five) days' notice to the Mine Operator, draw down the full value of the Development Guarantee, and hold the cash as security for performance of the Mine Operator's obligations under this Clause 20.4.
- 20.4.4 The Mine Operator shall meet the Development Shortfall, within a period of [*****]¹¹ Accounting Years immediately following the Accounting Year in which the relevant Development Shortfall occurred and in any event prior to the expiry of the Contract Period, failing which the Authority shall, without prejudice to its other rights and remedies under this Agreement, in law or equity, be entitled to appropriate the Development Guarantee in full, as Damages. Without prejudice to the foregoing, in the event of Termination of this Agreement, the Authority shall be entitled to appropriate the Development Guarantee in full, as Damages for failure of the Mine Operator to meet the Development Shortfall.
