Star Health cuts IPO size after tepid subscription

REUTERS Mumbai, December 3
INDIA'S LARGEST PRIVATE health insurer Star Health will cut the offer for sale portion of its IPO after the offering received a tepid response in its subscription period ending on Thursday, a source said.

Star Health cuts IPO size after tepid subscription

said Madhukar Ladha, equity research analyst at Ebra Capital. The combined ratio, a key profitability metric for an insurance firm's underwriting business, measures the incurred losses and expenses in relation to total premiums collected. "Star" suffered losses in the past too because of the impact of claims related to Covid-19 (and) this could have also dampened response for its IPO, Amarjeet Maurya, associate vice president of mid-caps at brokerage Angel One, told Reuters late on Thursday.

Reliance Nippon Life aims at over 20% growth in new biz premium in FY22

PRESS TRUST OF INDIA Mumbai, December 3

PRIVILEGE LIFE INSURER Reliance Nippon Life Insurance is targeting over 20% growth in new business premium in the current financial year, a top company official said. The company is a joint venture between Reliance Capital (51%) and Nippon Life (49%). "In the current fiscal (year till date October), our new premium growth has been 20%. We look forward to improving our performance in the rest of the financial year and governor 20% (for fiscal 2022)," the company's executive director & CEO Ashish Vohra told PTI.

The company's new business premium stood at ₹553 crore for the April-October period as against ₹462 crore in the same period of last fiscal. The insurer has been mostly present in the savings insurance segment, which includes guaranteed, participating (PAR) and ULIP products, he said. "As we see markets maturing, we see greater demand for guaranteed insurance products in the market. The growth will come from new products and new solutions," Vohra added. The insurer has recently launched a fully guaranteed product which offers 5.5-5.75% of guaranteed returns to customers over long tenures, he said.

The retail and institutional part was fully subscribed but that wasn't the case for HNIs (high net-worth individuals). We saw a tepid response from HNIs and so there has been a \$100 million short-fall. So as a result, the offer for sale size will be reduced to the extent of the under-subscribed portion," said a source. Star Health did not immediately respond to a request from Reuters for comment.
