

5 DECADES OF UNEARTHING ENERGY

Ref: CIL/M&amp;S/Power/ 421

Date- 06.08.2025

**NOTICE****Enabling the Power FSAs to allow the sale of Un- requisitioned Surplus (URS) power in the Power Market/ Exchanges in terms of Electricity (Late Payment Surcharge and Related Matters) Rules, 2022, and its subsequent amendment(s)**

In order to facilitate the power sector to maintain consistent demand of coal, CIL has been enabling the consumer-friendly provisions under ease of doing business keeping in mind the evolving market dynamics continuously. While the consumers often favor provisions that align with their specific interests, however, CIL has remained committed to policies that ensure fairness, equity, and consistent service.

In continuation to such endeavors, it is to inform that Committee of Functional Directors (CFDs) of CIL in its 391<sup>st</sup> meeting held on 05.08.2025 has approved the following:

1. *Un-requisitioned Surplus (URS) power generated while serving Long/ Medium Term Power Purchase Agreement(s) (PPA(s)) using linkage coal, may be offered/ sold in Power Market/ Exchanges in terms of Electricity (Late Payment Surcharge and Related Matters) Rules, 2022 and its subsequent amendment(s) w.e.f. 01.08.2025.*
2. *The above decision shall apply in respect of all existing/future Long/ Medium Term Power FSAs.*
3. *In respect of existing Long/ Medium Term Power FSAs, the relevant provisions restricting the sale of power in Power Market/Exchange shall accordingly stand superseded by the above decision w.e.f. 01.08.2025.*

This is for information and compliance by the concerned stakeholders.
